"NIGHT RIDERS" RENEW OPERATIONS IN STATE

Masked men, heavily armed, dashed through portions of Bath and Fleming county, on horseback late Saturday night and early Sunday morning and warned tobacco growers to have no more tobacco to the Carlisle and Flemingsburg markets.

The night riders also threatened violence if the farmers visited disobeyed their orders and demanded that no preparations be made for planting tobacco this year.

Reports of the activities of the night riders were received Sunday from Mt. Sterling, Carlisle and Flemingsburg. Two towns were visited by the night riders—Sherburne, in Fleming county, 12 miles from Flemingsburg, and Bethel, in Bath county, 11 miles from Carlisle.

Reports concerning the activities and number of the night riders conflict. From Flemingsburg, it was reported that in Sherburne there were from 25 to 30 men, mounted on horseback. The reports from Carlisle state that the group of men that visited Bethel was composed of 19 men on horseback and four unmounted.

According to news received here, 15 or more farmers were visited by the night riders during their sweep along the county lines of Fleming and Bath and late Sunday night confirmation of six visits made had been received.

At 11:30 o'clock Saturday night, according to the reports from Carlisle, the night riders appeared at the home of T. S. Robertson, of Bethel, a wealthy farmer and extensive grower of tobacco.

BOURBON BARN BURNED

A large tobacco barn on the farm of Logan Bryan, near North Middletown, together with 6,000 pounds of tobacco, was destroyed by fire of unknown origin, at two o'clock yesterday morning. The barn was a new one, having been completed a short time before the tobacco housing season. The barn was insured, but there was none on the tobacco. A new pair of scales just put in, adjoining the barn, was also destroyed.

MEDICAL SOCIETY ELECTS

At the recent meeting of the Bourbon County Medical Society, held in the Ellis Tea Room, the following officers were selected to serve during 1921: President—Dr. Charles G. Daugherty, Paris; first vice-president—Dr. J. A. Stoeckinger, Paris; second vice-president—Dr. H. M. Boxley, Millsburg; secretary and treasurer—Dr. M. J. Stern, Paris.

The meeting was attended by a large number of physicians from the city and county. Prior to the business meeting the city medicos were hosts to their visiting brethren at a supper given in the Tea Room.

THIEVES VISIT THREE MILLERSBURG STORES

Burglars effected an entrance Saturday night into three stores in Millersburg, and carried away several hundred dollars' worth of goods, including a number of watches and a small amount of cash from each place. The three places burglarized were the hardware store of the A. S. Best Co., the grocery of T. J. Judy and Jones Bros.' grocery.

Cash amounting to about \$8.00 was taken from the Best store, with watches and several flashlights. Burnt matches about the safe in the store indicated that it had been inspected, though no attempt had been made to force it open. At the Jones Bros.' store several electric flashlights and other goods, together with about \$10 in cash were taken. At the July store cash to the amount of about \$6.00 and other articles were stolen.

The county authorities and the Paris police were notified. Capt. V. K. Mullikin and his bloodhounds, of Lexington, were sent for late Sunday afternoon following discovery of burglars' visit. The dogs were immediately placed on the trail and led the authorities to the home of a colored man named Ed. Victor, in Millersburg. Victor denied any knowledge of the burglary, but was placed under nominal arrest, and is being held until more substantial evidence can be brought to light. The dogs led the trail to Victor's home from three different points.

"CHILDREN'S PARTY AT PARIS GRAND SATURDAY

The greatest "Children's Party" ever given in Paris will be held at the Paris Grand Opera House on next Saturday morning, January 29, at ten o'clock.

On this day every motion picture house in the United States will give a special morning matinee for the children. The entire proceeds of the shows are to be devoted to the Herbert Hoover European Relief Fund. The motion picture industry has pledged to raise the sum of \$2,500,000 to help save the lives of 250,000 children, and it is believed that this amount will be doubled.

Admission tickets for adults will be twenty-five cents, and for children, fifteen cents. Every citizen in Bourbon county should lend co-operation to this drive by purchasing tickets, and giving them to children who cannot afford to buy them.

WANTED, TEN YOUNG LADIES

Ten young ladies wanted to sell tickets for the big Morning Show at the Paris Grand Opera House, on Saturday, January 29, at ten o'clock. A prize of Ten Dollars (\$10.00) will be given to the young lady who sells the greatest number of tickets before 7:00 p. m., Friday. Get tickets at The Alamo or The Grand box offices.

THE TOBACCO MARKET

The Bourbon Tobacco Warehouse Co. sold yesterday 60,285 pounds of tobacco for an average of \$15.49. The highest basket of the season on the market brought 68 cents and was from the crop of John Taul & Son, of Montgomery county. This entire crop averaged \$34, while the crop of Caywood & Plummer averaged \$33.00.

Like the tobacco markets in all other cities in the Bluegrass, the local market keeps along the slumping line, and much dissatisfaction at low prices has been expressed by those who have brought their tobacco here. Earlier in the week the market seemed to be a little stronger, only to begin a decline that, growers stated, has been steady day by day. Even the better grades of tobacco have felt the effect of the slump, and growers are greatly disheartened by the prices being paid for their product. Many have unloaded their wagons, while others having tobacco on the floors, are holding for a possible change in prices. The tobacco continues to come to market, but if the low prices continue, there will be a very noticeable slackening of receipts.

Offerings on the market of Thursday were mostly of the common grades, but there was an increased demand for that grade, which caused the prices to advance about one cent. Both warehouses sold about 227,000 at an average of \$12.40. The market Friday was about on a par with that of the day previous, with prices possibly a shade lower. Good tobacco brought fairly good figures, but there was a preponderance of the lower grades, which reduced the average. The Bourbon Tobacco Warehouse Co. sold 162,980 pounds for \$15,745.91, an average of \$11.50.

As illustrating the condition of the local tobacco market the following was told THE NEWS Saturday by a Paris grocer:

"One of my best customers, a Bourbon county farmer, who has always had great success in growing tobacco, sent a load of the weed to the Paris market Friday. His teams all being busy he engaged a truck from a Paris garage. The garage charged him \$3 for hauling the tobacco to the warehouse. The tobacco sold for \$8.60, and he had to borrow forty cents to pay the truck driver. That's how the market has been here."

Another instance THE NEWS heard of in connection with the tobacco situation was this: A tenant on a Nicholas county farm near Blue Licks brought his tobacco to the Paris market and placed it on sale Friday. After deducting warehouse fees, and all other necessary expenses, and squaring up with his landlord, the tenant received a balance of ten cents. He is now in favor of a cut-out of the 1921 crop, and says he will raise beans or something else this spring.

LODGE NOTES

At the recent regular meeting of Rathbone Lodge No. 12, K. of P., W. T. Records was given the rank of Knight.

A committee was appointed to perfect arrangements for celebrating the fifty-seventh anniversary of the founding of Pythianism, which occurs on Saturday, February 19. The celebration will be held on Sunday night, February 20. Further notice will be given through the Paris papers.

There will be several noteworthy features at the next meeting, Thursday night, work in one of the three Ranks, and election of delegates to the Grand Lodge, K. of P., which meets in Lexington in June.

J. E. TAYLOR ANNOUNCES FOR JAILER

To The Voters of Bourbon County, the Ladies Especially—Having lost my right hand by blood-poisoning, and having six girls and only one earning a support, I am asking you for this office. I have been foreman and repair man in C. S. Brent & Bro.'s seed mill for 15 years. I am not able at present, physically, or financially, to go around and see each voter individually, so I take this means of reaching you. Again asking you for your support and influence, I remain,

Most Respectfully,
(25-41) JAS. EDGAR TAYLOR.

SETTLED AT LAST!

Word was received in Lexington by the Board of Commerce from Samuel D. Riddle, owner of Man o' War, to the effect, weather permitting, the champion racer would be shipped from Glen Riddle Farm, Bethel, Md., on Monday or Tuesday and would arrive in Lexington, Wednesday or Thursday, of this week. It was stated that given the public as to plans for the public exhibition, to be held in connection with the home-coming celebration planned in honor of the great thoroughbred.

MEETING POSTPONED

A meeting of Paris citizens interested in the housing problem was called for Friday evening at the court house, for the purpose of conferring with representatives of a housing financing corporation, but was postponed until another date on account of the inability of the representatives to reach Paris in time for the meeting.

COMMERCIAL CLUB ACTIVITIES

This week's calendar for the Paris Commercial Club activities includes several committee meetings, in which additional projects for the development of Paris will be launched, and a public forum meeting. Among the meetings will be those of the publicity, membership and city planning groups. The Publicity Committee will consider the matter of erecting road signs and the construction of a city bulletin board.

The public forum meeting will be held Thursday night at 7:30 o'clock at the Y. M. C. A. The program will include several entertainment numbers, including selections on the xylophone by Dr. W. C. Kiff, singing of old-time melodies by Miss Patsy Clarke, and vocal selections by Clay Sutherland.

Several additional committees will be appointed soon, it is expected, including one on public welfare, for the consideration of several projects not now handled by any active committees. This new committee will discuss such matters as promoting the use of the Public Library, both among city and rural people and the establishment of rest rooms for women.

Dr. J. T. C. Noe, of the University of Kentucky, has been engaged by the entertainment committee of the Paris Commercial Club to address the public forum meeting next Thursday evening, which will be held at the Y. M. C. A., beginning at 7:30 o'clock. Dr. Noe is a Redpath Chautauqua speaker. He delivered the famous address, "The Great American Home," in many of the larger cities of America last season, and was one of the headliners on the Redpath program. He will deliver this Chautauqua lecture here or another one equally as entertaining.

The committee desires to make it distinctly understood that this meeting is not limited to Commercial Club members; neither is it limited to men. At the last meeting, held in November, more women than men were in attendance. It is open to the general public, and there is no admission charge whatever. The meetings are arranged by the Commercial Club for the purpose of entertaining the public and discussing civic questions.

Arrangements are going forward for the first noon luncheon, which will be held Tuesday, February 1. It is doubtful if accommodations can be made for more than fifty, so it will be necessary for those desiring to attend to procure their tickets within the next few days.

The Paris Commercial Club has been asked to take part in the conference of the National Council of the Chamber of Commerce of the United States, to be held in Washington, January 27 and 28, when the formulation of a constructive national program for relief of the housing shortage will be undertaken.

Responses to the invitations sent out by the National Chamber indicate that there is great interest in the housing shortage, and a very definite willingness on the part of business men everywhere to join hands in an effort to work out a plan for its solution. The actual shortage of dwelling houses is estimated to be more than 1,250,000.

The program arranged for the conference takes up the various phases of the housing problem. The subject will be discussed under three main headings, construction, finance, and industrial housing, with the social and civic side of the question running through the entire conference.

Business men from practically every part of the United States will attend. Those invited from here are E. H. Goray, president, and Wm. E. Hacker, secretary, representing the Paris Commercial Club.

SOLDIER'S BODY EN ROUTE HOME

Undertaker George R. Davis received a letter from James L. Shanks, of Marion, Indiana, stating that the body of his son, Luther Clyde Shanks, formerly of near Ruddles Mills, who was killed in France during the world war, had arrived in New York, and would be sent to Paris for interment.

The body will be received here by an escort from the Bourbon Post, American Legion, and given a military burial, with the full honors accorded a soldier's funeral. Young Shanks enlisted from this county, and after a term in the military camps of the East, went overseas, where he served to the time of his death, which occurred on the field of battle in one of the numerous engagements in which thousands of other brave American lads went on their last long trail.

D. A. R. CELEBRATION

Richard Hawes Chapter, Daughters of Confederacy, on Saturday afternoon, celebrated jointly the birthdays of Generals Robert E. Lee and Stonewall Jackson, in the Confederate room in the court house.

The chapter had as their guests of honor for the occasion members of the John H. Morgan Camp, United Veterans, and a number of guests from out-of-town. Miss Reba Lockhart gave "The Puritan's Idea of Lee" and several other readings appropriate to the occasion. Miss Nannie Barbee gave two Southern stories in dialect. Coffee, sandwiches and doughnuts were served.

Africa's famous Ripon Falls, the outlet from the Victoria Nyanza to the Upper Nile, are to be harnessed for the production of electricity.

TOBACCO CONFERENCE AT WASHINGTON GIVES HOPES

A bright gleam of hope for what has been a precarious situation for the burley tobacco growers of Kentucky, Ohio, Indiana, Tennessee and West Virginia, was brought from Washington, Saturday by the representatives of Kentucky tobacco growers who have spent the week in a successful effort to relieve the local financial situation.

J. W. Newman, of Versailles, president of the Burley Tobacco Association, and Dr. S. H. Halley, president of the Fayette Tobacco Warehouse Company and prominent tobacco grower, Congressman J. C. Cantrill and R. M. Baker, of Carrollton, composed the committee which represented the tobacco men and returned with the welcome news. Dr. Halley and Mr. Newman returned to Lexington late Saturday afternoon. Both men were fatigued from the journey and were unable to describe the various meetings and conferences attended both in Washington and New York, but in the language of Mr. Newman, "The Burley tobacco industry has not gone to the pot by a jugful."

One result of the meeting makes it possible for the growers to keep the low grades of tobacco off the market by utilizing it for fertilizer. This will raise the average on local floors and render the tobacco situation less acute. The plans of the growers for producing the fertilizer have not been worked out, but a definite organization will be made at the meeting to-night and a board of directors, composed of 17 men, elected to assume charge of the movement. Officers will also be elected at this meeting.

PARISIAN STRIKES OIL IN PULASKI COUNTY

I. D. Thompson, of Somerset, while in Paris recently, received a message from his son-in-law, Herschel Humble, telling of a big oil strike made on property owned by them in Pulaski county. According to the message a well flowing forty barrels per day was brought in on their lease, and another well was down in the oil bearing sands over one hundred feet.

The well mentioned above as flowing forty barrels per day is within one-half mile of another lease on which a well flowing 100 barrels daily was recently brought in.

The Somerset Commonwealth of recent issue says:

"It is reported that the oil well shot on the A. R. Humble lease in Wayne county last Friday is producing 30 barrels of oil per day. Mr. Humble plans to drill other wells on his lease soon. Somerset oil is now quoted at \$4.25 per barrel."

TOBACCO AND BARN DESTROYED BY FIRE

The large tobacco barn owned by Henry C. Prewitt, on the Prewitt pike, five miles from Mt. Sterling, was burned to the ground soon after midnight Sunday morning. Some tobacco, grain and a lot of farming implements were destroyed. The loss is partially covered by insurance.

A tobacco barn belonging to Elmer B. Goddard, near Georgetown, with its contents owned by Mr. Goddard and Taylor Sinclair, was destroyed. The barn contained entire crop of eight acres. It is understood that there was an insurance of \$1,000 on the barn and \$1,250 on the weed.

IMPORTANT RULING MADE IN TOBACCO MARKET

Representatives of Kentucky tobacco growers in conference at Washington, with William M. Williams, commissioner of internal revenue, were given rulings entirely satisfactory to them regarding matters of taxation in connection with the use of Kentucky tobacco for fertilizer.

J. W. Newman, of Versailles, president of the Burley Tobacco Association; Dr. S. H. Halley, of Lexington, and Congressman J. Campbell Cantrill, of Georgetown, represented Kentucky growers in the conference with Commissioner Williams. They explained to Mr. Williams that on account of the condition of the tobacco market an effort is being made to keep the low grade tobacco off the market by utilizing it in the manufacture of fertilizer, and the question of taxation was raised. It was explained that a company has already been organized, with Mr. Newman at its head, to handle the fertilizer proposition.

Commissioner Williams held that a co-operative association grinding up low grade tobacco for use as fertilizer would not be subject to the regular tobacco tax, but that a nominal bond would be required of the manufacturers.

Another matter put up to Mr. Williams by the Kentuckians was that of a tax on tobacco sold to foreign governments. A plan is under consideration for the sale of a large quantity of tobacco by European powers and it was held by the commissioner of internal revenue that only the dealers' tax would be required of those who sold to foreign governments and that the regular tobacco tax would not be exacted.

BASKET BALL

The first defeat of the year was given to the Lexington High School team in the game played Friday night on the Y. M. C. A. floor in this city with the Paris High School team. The Paris team spilled the Lexington quintette on the short end of a 13 to 10 score. The Lexington team pitched in eight points to Paris High's two in the last half, but was unable to gain the lead. Paris lined up as follows: McClintock and Clark, forwards; Wright, center; Tucker and Dundon, guards. Lexington's line-up was: Miller and Beatty, forwards; Davis, center; Luby and Tracy, guards. Adams, of Georgetown College, acted as referee.

The Lexington High girls team evened up for the defeat sustained by the male aggregation by overwhelming the Paris High girls team in a score of 15 to 3. Thirteen of Lexington's fifteen points were made by Miss Whalen, the outstanding star of the game. The Paris team lined up as follows: Rule and Hall, forwards; Baldwin, center; Warrington and Rose, guards.

The Kentucky Wesleyan College basketball team will play a return game to-night with Paris High. The Winchester Sun scents possible danger to the K. W. team, in the following:

"Next Tuesday night the Wesleyan team meets the Paris team for its return game. At the same time the college girls will play the Paris girls. This will be a good game to watch as those who know that the Paris rules are to win at any price, will have a chance to see this rule reversed."

Strengthened by several nights of individual and team work practice the local Knights of Columbus team will meet the basketball team of the Cynthiana Athletic Club, to-night at 7:30 o'clock on the local Y. M. C. A. gymnasium floor. The Paris team expects to take the honors of the night from the visiting team, and will put forth every effort to that end. The boys say they are fit and ready, and when play is called, with a big crowd present, there will be some brilliant plays on the boards. All ready, go to it Paris, and may you be returned the victors!

The boys and girls basketball teams of the Nicholasville High School will play on the local Y. M. C. A. gymnasium floor on Friday night, January 28. The game will be called at 7:30 o'clock. This will be one of the best games of the season.

FINANCIAL CONDITIONS NOT GETTING BAD

Notwithstanding all the rumors of closed shops, less employment, reduced wages and the like, readjustment of our national economics is proceeding normally. No organization has its finger on the pulse of affairs—not even the general government—as completely as the Federal Reserve Board says that deflation is proceeding as it should without any indication of a panic.

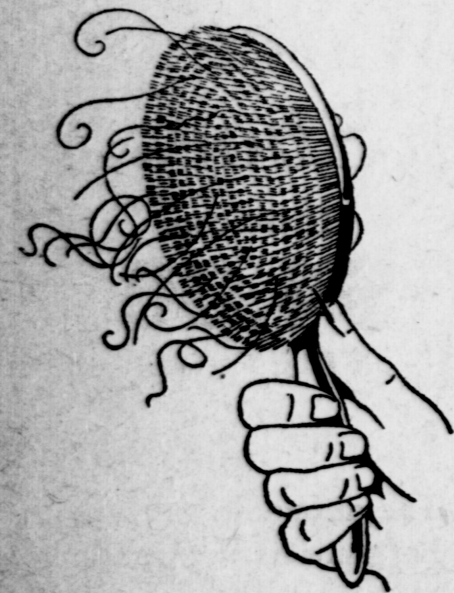

We all know that prices were far too high. Even steel, the basic industry next to farming, was twice as high as it ought to be. These prices had to come down and as they fell, with the certainty of lower dividends than during the old profiteering days when net earnings were no good unless they were at least 30 to 50 per cent, it was only human nature to howl. We are now hearing the dismal howling of the fellows who know that they must not submit to competition—the life of trade—and to reasonable profit.

The fact is that business is keeping up. Our reports are still large—they increase the last two months over previous months. Bank clearing are only a small percentage below flush 1919, notwithstanding that prices—wholesale prices, anyway—have gone away down from 1919, meaning that less money is passed in transactions of equal size. Money rates are receding.

Prices are lowering normally, all are agreed. But they won't go down to pre-war figures for a great many years, if ever. The man and woman who won't buy until shoes and clothes sink to pre-war figures will have to emigrate to where clothes and food and other necessities are not needed. Such a person is only doing his best to bring on a panic and bad times for himself.

Saffron Once Royal Color.

In Ireland saffron early became a royal color and, for a long period after such exclusiveness was taken away in Erin, the yellow saffron-dyed shirt remained a mark of social distinction in the Hebrides. In art saffron was much employed in medieval illuminated manuscripts. BOURBON ONCE HAD FIVE REPRESENTATIVES IN THE LEGISLATURE

Capt. James Meret, "The Boone Way Man," who has been contributing a series of articles to The Lexington Leader on "First Things in Kentucky" had the following in his notes in Sunday's Leader:

"Kentucky Legislature meets at Frankfort, the new capital, for the first time November 1, 1793, in a large frame house on the river bank. The first appointment assigned the representatives: To Fayette 6, Bourbon 5, Lincoln, Mercer, Madison, Mason, Nelson and Woodford 3 each, and 1 to Green, Hardin, Harrison, Logan and Shelby; Clark, Jefferson, Scott and Washington 2 each.

"Democratic societies, on the model of the one at Philadelphia were established at Georgetown, Paris and Lexington. They were opposed to the foreign, and domestic policy of Washington's administration. That at Lexington resolved 'that the right of the people on the waters of the Mississippi to its navigation is undoubted, and ought to be peremptorily demanded of Spain by the United States Government.'

SAYS TOBACCO MAKES IDEAL FERTILIZER

In view of the current prices of commercial fertilizers and the fact that some grades of tobacco are selling for less than \$2 per hundred, Kentucky farmers can profitably use tobacco, especially some of the dark varieties, for fertilizing purposes, according to a reply made by Prof. George Roberts, head of the Agronomy Department of the College of Agriculture, to numerous inquiries being received from farmers.

A ton of tobacco fine enough for distribution would be worth about \$67.50 or \$3.37 a hundred pounds, according to calculations made on certain current prices of mixed fertilizers. However, if the tobacco is to be used in connection with acid phosphate was the suggestion of Professor Roberts.

A ton of tobacco containing the average amount of nitrogen and potash, which is four per cent of the former and six per cent of the latter, when mixed with 1,000 pounds of acid phosphate would make a ton of fertilizer having the following approximate composition: Nitrogen two per cent., phosphate acid eight per cent. and potash three per cent. On the basis of certain current mixed fertilizer prices this tobacco mixed fertilizer would be worth about \$50 a ton, according to Professor Roberts.

"No-To-Bac" has helped thousands to break the costly, nerve-shattering tobacco habit. Whenever you have a longing for a cigarette, cigar, pipe, or for a chew, just place a harmless No-To-Bac tablet in your mouth instead, to help relieve that awful desire. Shortly the habit may be completely broken, and you are better off mentally, physically, financially. It's so easy, so simple. Get a box of No-To-Bac and if it doesn't release you from all craving for tobacco in any form, your druggist will refund your money without question.

American Shrub Appreciated.

One American shrub which has been received with great appreciation in England, and which grows well there, is the gorgeous flame azalea, called by the botanists azalea calendulaceum. This plant was sent to Europe many years ago, and perhaps is not grown so widely now as it has been in the past, owing to the great influx of rhododendron varieties.

Alice was staying with her father one evening while her mother was away. The father, while reading, was wiggling the floor lamp and Alice spoke up: "You know mamma does not want you to play with that lamp." She waited a minute, then added: "If you will give me a nickel I won't tell her."

SWIFT & CO.'S WEEKLY PRODUCE MARKET REPORT.

Egg receipts are not large enough to meet current needs and with light reserve stocks in storage, prices continue at a high level. Any marked increase in receipts will result in lower prices in the larger consuming markets.

Butter markets have declined during the week, resulting in lower prices for butter fat throughout producing sections. A larger amount of butter is being manufactured each week than during the corresponding period last year. Fine quality butter is in demand, while poorer grades are "draggy." An improvement in the quality of cream delivered to the creameries would result in better butter and a more generally favorable situation.

Since our last review, poultry prices have been generally higher, both in the producing field and the consuming centers. There has been some reaction, however, toward the close of the week, showing that prices can not be long sustained on so high a basis.

Operated by a gasoline engine, and either tractor or horse-drawn, a machine has been invented that strips twigs from camphor trees without injury to the trees.

KENTUCKY JOCKEY CLUB TO INCREASE STOCK.

Stockholders of the Kentucky Jockey Club held a meeting at the offices of the Jockey Club at Churchill Downs and voted to increase the common stock of the club by \$2,000,000, making it \$3,000,000 in all, the purpose being to bring the outstanding common stock close to the value of the properties. It was further voted to reduce the par value of all the common stock from \$100 a share to \$25 a share in order to give the stock ownership among more people.

The same board of directors which served last year was re-elected, and they afterward held a meeting and re-elected Senator Johnson N. Camden, of Versailles, Ky., president; Colonel M. J. Winn, vice-president and general manager, and Sherman Goodpaster, secretary and treasurer.

MADISON COUNTY COON STORY BEATS OURS

Several weeks ago THE NEWS printed a story regarding the capture of a coon weighing twenty-eight pounds by Carl Mitchell, of Paris, while hunting with a party of friends near North Middletown. This was thought to beat the record for four-legged coons, but now comes the Richmond Register with this story:

"The most interesting hunting expedition that ever happened in this section occurred last Saturday. Will Hill, of College Hill, was out on the headwaters of Flint Branch with his noted dog, King. King scented the track of something and began acting strangely. He followed it for a mile or more, when he began barking up a large tree.

"Mr. Hill went back to get help, leaving King to guard and returned with a dozen men and dogs. Mt. Hendrix being an expert climber, ascended the tree, to take the coon from his den. When the coon was disturbed in his cozy bed, he ran out by Mr. Hendrix, jumped down, ran over men and dogs and made for another tree. When it had gone up 10 or 15 feet King sprang up the tree, bringing down the coon.

"Men and dogs engaged in the fight and finally subdued it. When it was dressed it weighed fifty pounds. Those who were engaged got a nice piece of meat. Mr. Hill is going to have the hide dressed and have a cap and jacket made out of it, and from the remainder he will have a rug made for King to recline on in his declining years. Thomas Belows, an old time hunter, who has hunted bear and coon in the Cumberland mountains, declares he never saw one equal this in size or as well fattened, and the flavor of the meat was as good or better than the old time bear meat."

Health Shown by Finger Nails.

The rapidity of the growth of the nails is indicative of the health. The growth of the nails on the right hand is in most people more rapid than of those on the left hand. Another curious point is that the rate of growth of the nail depends directly on the length of the finger. Thus the nails on the two middle fingers of men grow more rapidly than those on the first and fourth fingers respectively, and these in turn are more speedily grown than those on the little fingers.

NO TAX PAID ON 26,483 DOGS

Owners of at least 26,483 dogs in Kentucky failed to pay the license tax on their pets during 1920, according to figures just made public at the office of the State Commissioner of Agriculture W. C. Hanna. Licensed dogs, reported to the Commissioner up to December 31, were 144,499, while tax assessors of various counties listed 170,984. In some counties more dogs have been licensed than were reported for taxation.

Evasion of the dog license tax law, however, is so general in some communities, according to officials of the Department of Agriculture, that efforts are being made to secure indictment and punishment of offenders. In Christian county several hundred persons have been indicted, while officials in other counties have started action looking to the enforcement of the tax law. Books of the commissioner show that in Jefferson county only 653 out of 6,164 dogs reported for taxation have been licensed during the year, while in Campbell county the records show 333 dogs licensed as against 1,660 listed for taxation. Dogs taxed in Wayne county totaled \$05, as compared with 1,708 listed; Laurel 505 taxed and 1,329 listed; Marshall 624 taxed and 1,003 listed; Morgan 833 taxed and 1,735 listed; Pike 2,098 taxed and 3,621 listed.

The records show that 151,816 male dogs and 17,552 females were listed for taxation. No figures were available as to the possible number not listed, or the distribution of license fees between males and females.

Redwoods in Italy.

California redwoods are commonly found planted in every section of Italy, and they seem to develop speedily under the conditions of the Italian climate, says the American Forestry Magazine. In Bologna recently a redwood tree over four feet in diameter was cut, which had been planted only about 60 years ago. Sections of this tree are now exhibited in the Museum of the Royal Forestry college at Florence.

"UNLUCKY" BOURBON PRISONER LOSES JINX.

Some time ago prohibition enforcement officials arrested Artis Owens, a tenant on the farm of Mrs. W. B. Cumber, near Hutchison, on a charge of making moonshine whiskey. They destroyed a small still, which, together with a quantity of liquor, was found in Owens' kitchen. Owens claimed he had been ill of the flu and had made the liquor for remedy. In the United States Court at Lexington he was given a sentence of six months in jail.

Last Wednesday night a barn on the Cumber place was destroyed by fire, together with approximately 10,000 pounds of tobacco, valued at \$3,000, with but \$500 insurance. Half of the tobacco belonged to Owens.

Upon learning of Owens' bad luck Federal Judge A. M. J. Cochran reduced his sentence to three days, and on Saturday evening he was released. In discussing the fire Owens said that bad luck had followed him ever since his family had the influenza.

His brother's mind became affected as a result of influenza. His father became too feeble to work and had also been ill of influenza and he himself had an attack of the malady and then came his arrest and conviction on a charge of illegally manufacturing liquor.

The animal had been taken up on the street by a small boy, and held a captive. Now both owner and dog are happy in the restoration. It pays to advertise—in THE NEWS!

TO OUR ADVERTISERS

In an earnest effort to system-
atize the work in THE NEWS
office we published in several issues
a notice to advertisers that copy for
ads MUST be in this office on Sat-
urdays and Wednesday. This was
done in order to give more time and
better attention to display and to
help the general work of the me-
chanical department.

Some of our advertisers have
overlooked this requirement think-
ing it was merely a suggestion.
But we have made it a fixed rule
and insist upon its observance. No
change of advertisements will be
made in the future unless the copy
is in the printer's hands by Satur-
day or Wednesday.

MATRIMONIAL.

PETERSON—BRATTON

—A marriage license was issued
Saturday afternoon from the office
of County Clerk Pearce Paton to
Marion Peterson, 21, and Miss Em-
ma Bratton, 18, both of Paris. They
were married shortly after at the
home of the officiating minister,
Rev. I. J. Spencer, pastor of the Lex-
ington Christian church. The bride
is a daughter of Mr. and Mrs. Thos.
Bratton, of East Paris, and the
groom is a son of Mr. and Mrs.
Charles C. Peterson, of Paris. They
will make their home in Louisville,
where Mr. Peterson is engaged in
business.

MITCHELL—CRITCHFIELD

—The marriage of Charles Mitch-
ell, of Winchester, and Miss Myrtle
Critchfield, of Princeton, Indiana,
was solemnized last week at the
Seelbach Hotel, in Louisville. Mr.
Mitchell was a resident of Paris for
several years, where he was en-
gaged in the clothing business with
his father, in the building at pre-
sent occupied by the N. A. Moore
pool room. He is now in business
in Lexington, where he is proprie-
tor of a coco-cola manufacturing
concern. His bride has been a teach-
er in the Lexington School of Mu-
sic for several years. Immediately
after the ceremony Mr. and Mrs.
Mitchell left for Miami, Florida,
where they will remain the rest of
the winter.

SWEENEY—BONFIELD

—Announcement has been made
by Mr. and Mrs. M. C. Sweeney, of
near Paris, of the approaching mar-
riage of their daughter, Miss Beatie
Sweeney, and Patrick Bonfield, of
Brooksville. The marriage will take
place at the Church of the Annun-
ciation, in this city, on Monday morn-
ing, January 31, with Rev. Father
Coleman officiating.

Miss Sweeney is a graduate of the
Paris High School and was one of
the most popular students at the
University of Kentucky during the
1916-17 session. For the past three
years she has been an efficient
teacher in the Bourbon county
schools. She is an attractive young
woman with a large circle of friends.
Mr. Bonfield, the prospective bride-
groom, is an industrious young farm-
er, the son of Mr. and Mrs. Denn's
Bonfield, Sr., of Brooksville, and a
cousin of Joe Bonfield, formerly in-
terurban agent at Paris.

LEACH—WESSLEMAN

—The many friends of Miss Jonni-
E. Leach, of Elizabeth, a popular
teacher in the Bourbon county
schools, were treated to a surprise
Saturday when announcement was
made by her parents, Mr. and Mrs.
J. M. Leach, that she was married
on March 1, 1920, to Lewis N. Wes-
sleman, of the Richmond pike, near
Lexington.

The groom is a son of Mr. and
Mrs. John L. Wessleman, former
residents of Bourbon county. He is
a former service man and is very
popular with a large circle of friends
in this county. The records of the
County Clerk's office in Paris show
that the young couple were married
at the home of the bride, near Eliza-
beth, by a well-known Lexington
minister.

Their object in keeping the mar-
riage a secret for nearly a year was
that the young woman might teach
the school in her home district pre-
judice having been expressed against
employing a married woman. It is
understood that her resignation as
teacher was the first intimation that
the devoted couple were man and
wife. Her successor has not yet been
selected.

Mr. and Mrs. Wessleman will
make their home in the future with
the parents of the groom, who is as-
sisting in management of the large
farm on the Richmond pike.

Help Control "Busy" Reports

Out of the thousands of telephone calls made daily, about ten per cent result in a report of busy lines.

This enormous number of busy reports is due largely to the fact that many subscribers repeat their calls at intervals of a few seconds.

Making immediate and repeated calls for a busy line causes much unnecessary work for the operator and is a wasteful use of lines and equipment.

It will improve your service and help the general service of the community if you will wait a few minutes after receiving the busy report before making a second call.

GERMAN MIND IS UNCHANGED

War Fails to Jar Conceit of
Teuton, Says Observer of
Long Experience.

MENTAL ISOLATION ABSOLUTE

Unable to Understand How They Are
Detested—The German of Today
Is to All Intents and Purposes
the Same as in 1913.

London. — Although Berlin has changed since 1914, the German mind remains unchanged. Neither the holocaust of dead nor the crash of thrones has shaken Germany out of her self-conceit, according to what G. Valentine Williams, formerly correspondent of Reuter's Agency in Berlin, tells the London Daily Mail.

"The German mind," he says, "does not seem to have altered."

"Albeit sadly puzzled to account for the utter break-down of the entire German system, in his outlook on life the German of 1920 is to most intents and purposes the German of 1913. In a world which to British eyes is strangely changed by five years of World war the mental isolation of the German is absolute. To talk to him makes you feel that the German of today is the loneliest creature on God's earth."

"Yet with heavy deliberation he is communing with himself to ascertain the causes of his defeat. But he is not examining his conscience."

"Any Berlin bookshop will show you the chaos prevailing in the German mind."

Nothing of the Present.

"Professor Steinach's rejuvenation experiments, Einstein's theory of light, Maynard Keynes and Norman Angell on the Versailles Peace—both books in German translations and prominently displayed—treatises on spiritualism, atheism, free love, and the like—works of this description stand side by side with a mass of frankly pornographic literature. Here will you find reasoned explanations for the past, complicated schemes for the future, but nothing practical to deal with the problems of the present. And above all, no contrition for Germany's crime against mankind."

"The German surveyed the world from his castle of militarism. Now that it has collapsed he is left floundering in a sea of doubts and fears. The Germans with whom I have spoken expect us to hold them guiltless of the past because, they say, they have rid Germany of her military caste."

"They have, it is true, expelled the bloody-minded blunderers surrounding that eminent nonentity, William the Second-rater, because they failed to keep their promise to establish German world-domination. But the German people is governed by the herd instinct, and the expulsion of the Old Gang in the circumstances of military defeat and home panic in which the Hohenzollerns were sent away requires weightier evidence of a change of heart that is forthcoming in Germany today, if it is to be accepted as a proof of the death of German militarism."

Blank Indifference.

"Talk to a Frenchman of any class, and you will, sooner or later, come upon a well-banked but fiercely smoldering Republican ardor. Talk to a German about his government and you will find, at the best, lukewarm interest; at the worst, resentful ridicule towards the German Republic."

"The average attitude is one of blank indifference. The German man in the street never thought for himself. He does not do so today. The question of the future is, what party will emerge from the present chaos to do his thinking for him?"

"The Germans are perfectly willing to forgive us for the war. They talk glibly about 'this unhappy war' with the air of a man making perfunctory excuses for some social lapse. In some may be detected in addition a little air of condescension in speaking of the late unpleasantness as though to draw attention to their magnanimity in accepting the war as an inevitable catastrophe, 'an act of God,' as the insurance policies say. And even today I find that the great majority of Germans have no idea of the abhorrence in which the very name German is held in the Anglo-Saxon countries and in France and Belgium."

SEEK FRUIT FLY PARASITE

Indian Bug to Be Introduced in Territory to Save the Hawaiian Products.

Honolulu, T. H.—David T. Fullaway, entomologist with the territorial board of agriculture, will leave soon for India to search for certain fruit fly parasites discovered by George Compere at Bangalore, India.

LANDSLIDE DISCLOSES COAL MINE IN FLEMING COUNTY

What is believed to be a valuable coal mine has been discovered in Fleming county about nine miles from Flemingsburg on a farm owned by Wat Strode, between Sugar Loaf Mountain and Foxport. A short time ago a landslide on the side of the hill exposed some coal. The coal was tested and burned by several persons living in that neighborhood who declare it is of good quality. It has not been examined by any who claim any special knowledge along that line, but it is thought a fine vein of coal has been exposed.

HE ENJOYS HIS MEALS

Mr. J. E. Powell, the Popular Fireman of No. 5 Annex Fire Department, Portsmouth, Virginia, Tells of the Good That Re-Cu-Ma Has Done Him—Could Not Keep Food On His Stomach Be ore Its Use—Now Eats As He Pleases.

Mr. Powell says "Re-Cu-Ma is the best medicine I ever saw. I was troubled with indigestion. I could not eat with any comfort. Then I tried one bottle of Re-Cu-Ma and it has done me much good. I can now eat as I wish without inconvenience. I used to be very hungry and anxious for meals, but everything I ate made me sick and I could not retain it on my stomach more than an hour or so."

Re-Cu-Ma is sold in Paris at Brooks & Snapp's Drug Store and all good druggists. It is sold under an absolute four-day offer, which means that you try Re-Cu-Ma with the understanding that at the end of four days you do not show material improvement you can take the bottle of Re-Cu-Ma back to the druggist and he will give you ever cent you paid for it. There couldn't be a fairer offer. If you are suffering take advantage of it.

Re-Cu-Ma, through its action on the liver, kidneys and blood, brings strength and stamina to the entire system.

For sale by Brooks & Snapp and all Good Drug Stores. (adv)

PROPOSES MANUFACTURING BODY

(Mt. Sterling Advocate)

In Congressman Cantrill's address to the tobacco growers, warehousemen and bankers at Lexington, numbering about 2,500, Mr. Cantrill suggested nothing new, but emphasized the course as mapped out by others with the same hopeful vision that better prices may prevail by dividing the sales in two parts and cutting out the 1921 crop entirely. As we see it, to prevent recurrences of continuous low prices a firm and compact growers' organization for the manufacture of the weed is the only alternative, as the sooner such an organization is effected the better for growers now, and their successors, as well as all lines of business.

ANOTHER WOMAN WHO IS THANKFUL FOR
PE-RU-NA

"I have taken several bottles of Pe-ru-na and find it a great benefit. I had pains in my stomach and bowels, but by the use of Pe-ru-na and Man-a-lin, I am well and strong again. I always keep a few bottles in the house."
Mrs. OSCAR GRAY,

Mrs. Gray's experience is just more evidence that Pe-ru-na is quite as good a remedy for catarrh of the stomach, bowels or other organs as it is for coughs, colds and nasal catarrh. Pe-ru-na is a wonderfully fine medicine to have in the house for everyday ills.

WHEN THE PAPER DOESN'T COME

My father he says the paper he reads ain't put up right. He finds a lot of fault, he does, perusing it all night. He says there ain't a single thing in it worth while to read. And that it doesn't print the kind of stuff the people need. He tosses it aside and says it's strictly bum—

But you ought to hear him holler when the paper doesn't come.

He reads about the wedding and he snorts like all get out.

He reads the social doings with a most derisive shout.

He says they make the papers for the women folks alone.

He'll read about the parties and he'll fume and fret and groan;

He says of information it doesn't contain a crumb—

But you ought to hear him holler when the paper doesn't come.

He's always first to grab it and he reads it plumb clean through.

He doesn't miss an item or a want ad—That's true.

He says they don't know what we want, the darn newspaper guys.

I'm goin' to take a day some time an' go an' put 'em wise;

Some times it seems as though they must be deaf, blind and dumb—

But you ought to hear him holler when the paper doesn't come.

LOOK AT THE BRIGHT SIDE

While the tobacco situation in Bourbon county is undoubtedly a deplorable one, we should not forget to count our blessings as well as deplore our hardships. Suppose we look back a couple of years. Then we had high prices for tobacco, but we had practically no corn, oats, hay or feed of any kind. Tobacco brought lots of money, yet a very large per cent. of it was spent for feed to carry the stock through the winter to grass and feed the work stock while the crop was being raised. The same thing was true in a smaller degree last year.

Now most farmers have corn, hay or oats, and sometimes all three, for sale. Last year every farmer had to buy seed potatoes at from \$6 to \$8 a bushel, while now they can be bought for \$1.50, and many farmers have them for sale. So, let us look at both sides of the picture and be thankful we are as well off as we are. It might be worse.

WARNS AGAINST FOREIGN HUBBY

Mme. Tartoue Hopes American Girls Will Profit by Her Unfortunate Experience.

WIFE OF PORTRAIT PAINTER

Says European Men Are Not Brought Up With the Ideals of Marriage and Womanhood That American Men Are.

New York.—"If American girls who are contemplating marriage with foreigners will only listen to me and take warning from my unfortunate experience with a distinguished foreigner, to whom I gave my love and devotion, I will feel repaid in a measure for the ordeal through which I have passed and the humiliation I must now endure.

"Most men from the continental European countries are not brought up with ideals of marriage and womanhood which American girls are taught to believe American men have. They make bad husbands for an American girl, and my advice to girls is to pick out an American for a husband."

That is what Mme. Pierre Tartoue, wife of the noted portrait painter, said in discussing her marriage and her suit for separation just started.

Mr. Tartoue is said to be in the Adirondacks. His studio is said to have been sublet to Rene Van Lennep, a friend.

Since Mme. Tartoue departed from her home over a month ago in the middle of the night, following a series of alleged sensational incidents in and near the studio, she has been living in seclusion with her mother, Mrs. R. Bengue Barnett.

Tells of Persecution.

Light on the nature of her disagreement with her husband was shed by Mme. Tartoue during her interview. She said:

"The persecution to which I was subjected by two elderly women will be made public during the trial.

"I lent myself to Pierre for publicity purposes much against my own inclination. He told me it would help him.

"I lent him money as well, as most American girls who marry foreigners find they are obliged to do for the sake of preserving their homes and saving their husbands from financial difficulties. My family and friends have reason to know intimate details concerning these financial transactions.

"I sacrificed myself on the altar of Pierre's art and I soon discovered he did not appreciate it. This is my attitude toward my husband. I have no animosity in my heart, only pity.

"After I was Pierre's wife he constantly told me I was no longer an American woman. He said I was under the French law, because I had married a French citizen. He told me I would have to bear half the expense of our establishment and that French women had no rights.

Helped in His Work.

"Pierre told me he was madly in love with me. I was madly in love with him. He told me and told my friends I was the most beautiful American girl. He told me I was an inspiration to him in his art. Believing implicitly in him and in his genius, I helped him every way I could. I even posed for him for portraits of myself, and I posed for the hands and gowns of some of his best portraits. Among those were the portraits he painted last year of Mrs. Frederick Brooks of New York, Mrs. Harold Brooks and Miss Ruth Shoelkopf of Buffalo.

"After he had painted a portrait of me with my wedding veil over my head, some critics told him it was one of the best pieces of work he had ever done. When he painted the 'God of Happiness,' which now hangs in the Alfred I. du Pont home on Long Island, I helped him with my suggestions.

"I found, however, that Pierre did not appreciate me. With my own hands I used to cook him little studio dinners so that at the end of the day, when he was tired out from painting, he would not have to go out for dinner. Those were halcyon days when Pierre and I were by ourselves night after night in our studio. I could hardly believe the thing was real, it was so ideal.

"We were married October 14, 1919, and I will never forget the promises he made that day, for he did not keep a single one of them."

Infant Sent to Dentist.

Kennebec, S. D.—The daughter of Mr. and Mrs. Leo Coyours of this place has gained a unique distinction. The baby is only three weeks old but she was born with one tooth. Nor is that all. Within a week after her birth it was found necessary to extract the tooth. So Miss Coyours may boast of not only having been born with a tooth but of having had dental attention before she was a week old.

Will Take "Bug" Census in School.

Cleveland.—A "bug" census will be taken by the students of a Cleveland high school. Members of the biology class will scrape the walls of the building and collect all the bacteria under the microscope and study the species that they are learning.

STATE MAY ACT TO SAVE WIRE SERVICE

The State may take a hand in the litigation between the Western Union and the Louisville & Nashville Railroad Company, which has reached the Court of Appeals, in a motion by the telegraph company to reinstate an injunction refused by Judge Kirby of the Jefferson Circuit Court.

Attorney General Chas. I. Dawson asked permission of the court to file a brief. He has been requested by the Railroad Commission to investigate whether he could with propriety take a hand in the situation, and he said that he has not decided what action to take.

The commission has received numerous complaints about lack of telegraph facilities since the Western Union has abandoned many of its offices that were reached by its wires along the Louisville & Nashville right of way.

The telegraph company has informed the commission that it could not afford to condemn rights of way across the country to connect many small cities formerly served and may have to abandon many others, if it is ousted by the L. & N.

For every 150 places for domestic servants in France, the employment agencies there say there are only ten servants available.

RELIGIOUS.

The Pastors' Aid Society of the Paris Presbyterian church will hold an all-day meeting in the church parlors to-day, Tuesday, January 25. All the members are urgently requested to be present.

—One of the pleasing features of the services Sunday at the Presbyterian church was the solos and duets by Miss Mary Dan Harbeson and brother, Capt. Dan Harbeson. A music lover remarked: "I'll be willing to venture the assertion that the 'angelic choir' spoken of by the poets contains no lovelier voices than those of Miss Mary Dan Harbeson and Capt. Robert Harbeson." Rev. Theodore S. Smylie, pastor, preached at both services.

—As a mark of respect to Rev. Walter S. Cain, rector of St. Peter's Episcopal church, the members of the various Masonic bodies of Paris attended the Sunday morning services at that church in a body. Rev. Cain, who is a member of the Masonic order, preached a sermon appropriate for the occasion. The following Masonic bodies were represented: Coter de Lion Commandery No. 26, Knights Templar, Paris Lodge No. 2, F. & A. M., Paris Chapter No. 15. Members of other lodges in the county also attended.

In this emotional society drama, Alice
Joyce is seen in the midst of gorgeous set-
tings, in banquet halls and ball rooms, in
palatial drawing rooms and suites de
luxe; and she proves again the age-old
truth that a woman's heart can beat as
sadly beneath the costliest silks as be-
neath more humble garb.From the opening scenes when as a
girl who finds merely living a positive joy,
to the more mature and shadowed period
when every circumstance seems to drive
the arrow of pain more deeply into her
heart, Alice Joyce, the heroine of this
drama, is superb, and scales new emo-

production is magnificently mounted.Also a Capitol Comedy
